

N' ViVe, Inc.

Section I – Identification

Product: N'vive CauQ

Manufacturing Facility:

KVNCOSKM, Atlanta, GA – USA

R&D & Marketing Departments

14802 Moran St, Westminster, CA 92683

Telephones: 714-897-6980

714-707-7397

Description: Primary natural cream

Chemical Family: Natural oil

Formula: Proprietary mixture

Emergency Telephone Number: (714) 707-7397

NFPA Rating: Health: 0, Fire: 0, Reactivity 0

MSDS Origination Date: 04/20/2011

Section II – Hazardous Ingredients/Mixtures

Materials	CASNo
Terpineol	98-55-5
Lignin	8068-05-1
Arecoline	300-08-3
Arecaidine	508-02-1

Guvacine 6027-91-4

Gallic Acid 5995-86-8

Note: These above data were giving from Dangerous Properties of Industrial Materials, N. Irving Sax.

Section III – Fire And Explosion Data

The primary chemical in N’Vive CauQ Strengthening Shampoo & Body wash composes of The Gallic Acid monohydrate.

Plash Point: >212⁰F

Extinguishing Media: Normal fire fighting media, including water fog, and carbon dioxide.

Section IV – Health Hazard Information

Toxicological Data on Ingredients: Gallic Acid monohydrate: Oral (LD50): Acute: 5000 mg/kg (Rabbit).

Potential acute health effects:

- **Eye:** May cause eye irritation.
- **Skin:** May cause irritation, permeability.
- **Ingestion:** Irritation to mouth, esophagus, and stomach.
- **Inhalation:** Mist of petrolatum vapors may cause irritation or respiratory tract.

Emergency and First Aid Procedures:

- **Skin and Eyes:** Flush with water for at least 15 minutes. Coldwater may be used. Do not use an eye ointment. Call a physician if irritation persists.
- **Ingestion:** Do **Not** induce vomiting. Rinse mouth and give two glasses of water.

- **Inhalation:** Allow the victim to rest in a well ventilated area. Seek medical attention.
-

Section V - Reactivity Data

Stability: Stable

Conditions to avoid: Flames, Ignition sources, and Incompatibles.

Incompatibility: Avoid contact with strong oxidizers.

Hazardous Decomposition Products: Toxic carbon monoxide and carbon dioxide.

Section VI – Accidental Release Measures

Small spill: Eliminate all sources of ignition. Use an inert absorbent material to contain and collect material for dispose. Wear appropriate personal equipment.

Large spill: Use the shovel to put the material into a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system.

Waste disposal method: Dispose of in accordance with Federal, State, and Local regulations.

Section VII – Special Protection Information

Respiration Protection: Use NIOSH/MSHA approved respirator with organic vapor cartridges where mists or sprays may be generated.

Ventilation: Use adequate general or exhaust ventilation.

Protection gloves: Use impervious rubber or neoprene gloves.

Section VIII – Special Precautions

Precautions to be taken in handling and storing: Prevent containers from freezing, which may cause separation of the mixtures. Keep away from sparks and open flames.

Other Precautions:

- Do not inhale vapors/mists.
- Consult your doctor or dermatologist before beginning treatment of your skin.

Section IX – Regulatory Information

This product is not considered a carcinogen or cancer suspect under NTP, IARC and OSHA.

SARA Title III Section 302 (Extremely Hazardous Substances): N/A

SARA Title III Section 313 (Toxic Chemicals): N/A

California Director's List of Hazardous Substances: N/A

Proposition 65 (Chemicals known to the state of California to cause cancer or reproductive toxicity): N/A

US DOT Proper Shipping Name: Not regulated.
